

Pottstown has about 3,400 street trees						
A street tree is one that is located in the public right of way.						
However, in nearly all cases, the shade tree commission considers a street tree as one that is planted in the sidewalk or between the curb and the sidewalk.						
Street	Street on which the tree is planted					
Street number	Street number closest to the tree (sometimes there may not be a building near the tree)					
Tree No.	If more than one tree is at one address, the trees are numbered					
Species	Species of tree					
Date planted	Date the tree was planted, if known (for example, 91-5 means the tree was planted in May of 1991)					
Planted by	Entity who planted the tree, if known					
Size of tree well	Size of the dirt well, or pit, in which the tree is planted					
Street	Street number	Tree No.	Species	Date planted	Planted by	Size of tree well
